

Performance monitoring and reporting tool for storage systems

STOR2RRD tool provides end-to-end views of your storage environment including LAN and SAN. It can save you significant money and effort in operation monitoring and by predicting utilization bottlenecks in your virtualized environment.

You can also generate performance alerts per storage, pool or volume, view overall health status of your systems, reduce service downtime and access capacity and forecasting data.

Monitored components

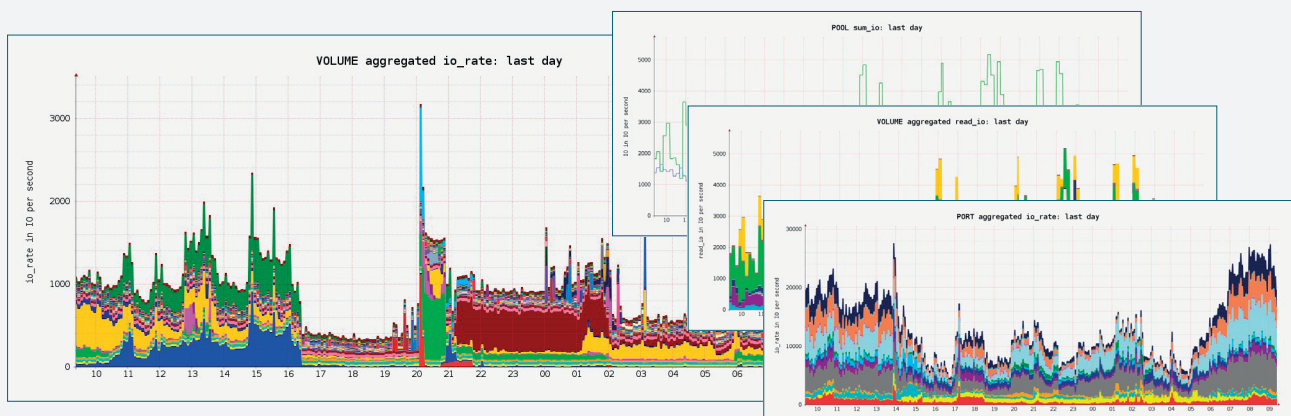

- ▶ IO rate
- ▶ Data throughput
- ▶ Latency
- ▶ Cache hits and usage
- ▶ Remote replication
- ▶ CPU utilization, compression usage

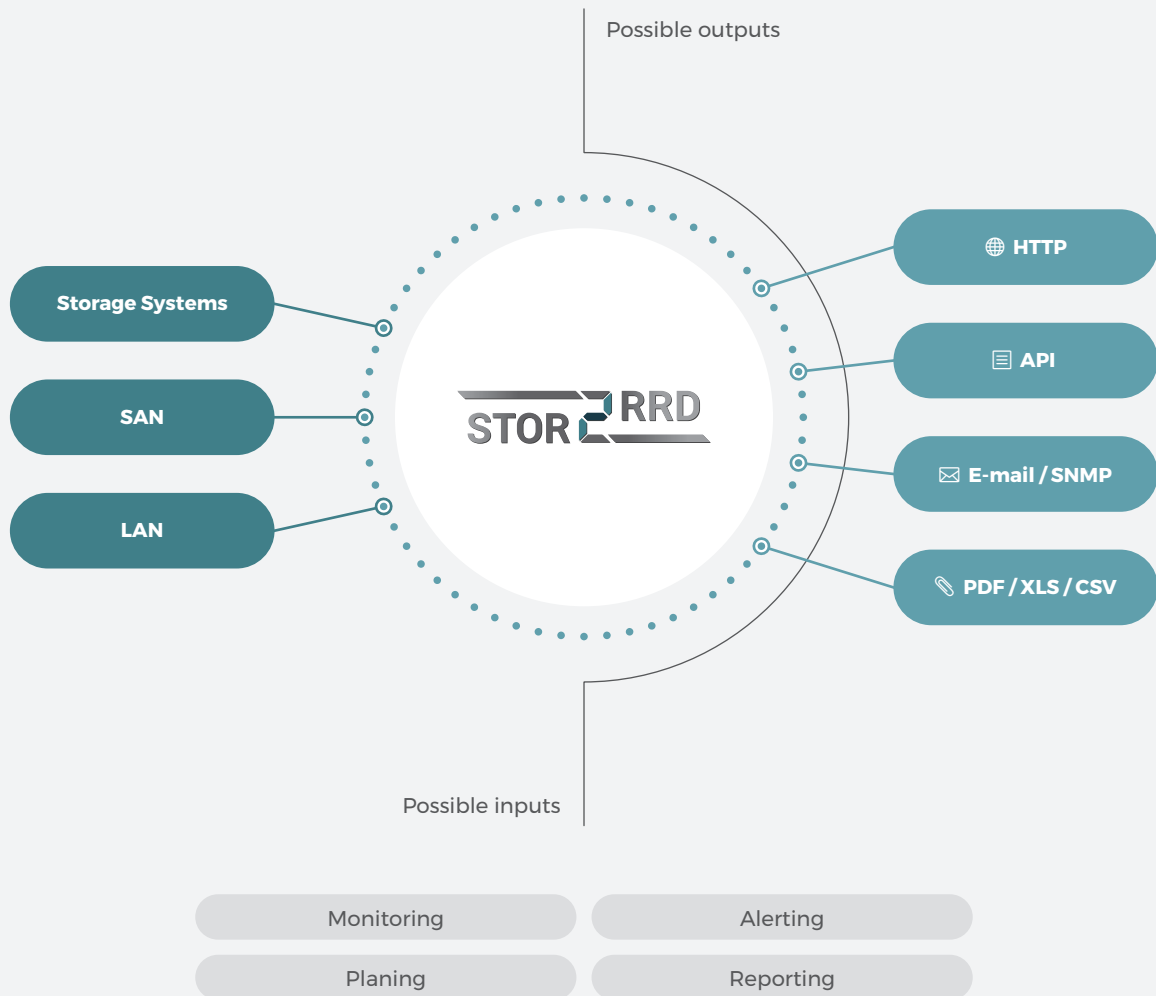

Monitored logical and physical components

- ▶ Ports
- ▶ Nodes (Controllers)
- ▶ Pools
- ▶ Raid Groups
- ▶ Volumes (LUNs)
- ▶ Drives
- ▶ Hosts

Supported vendors

- | | | | |
|-------------------------|-----------|----------------|------------|
| ▶ IBM | ▶ NetApp | ▶ Pure Storage | ▶ DataCore |
| ▶ Hitachi Vantara | ▶ Huawei | ▶ Infinidat | ▶ Brocade |
| ▶ Dell EMC ² | ▶ Lenovo | ▶ Dot Hill | ▶ Cisco |
| ▶ HPE | ▶ Fujitsu | ▶ Quantum | ▶ QLogic |

We offer support for the product which brings you the following benefits:

- ▶ SLA: next business day response time for critical issues.
- ▶ Enterprise Edition with enhanced features.
- ▶ Regular health checks.
- ▶ Priority in implementation of new features based on your request.
- ▶ Report automation and customization.
- ▶ Proxy Agent.
